ELECTRONIC CASH REGISTER

Convenience In-Built with Design Convenience

A compact, low-profile design makes the XE-A137 real countertop space savers. The front-locking drawer features three bill compartment and a removeable coin tray. A slot accessible from the outside of the drawer provides a quick, safe way to put large bills and cheques into an under-tray storage area without having to open drawer or lift the heavy coin tray. Whats more, a multi-purpose tray on the outside-a handy new design feature-provides a convenient resting place for coins, bills, and pens.

Thermal Printer with Graphic Logo Printing

The built-in thermal printer prints out sales receipts on 58-mm-wide paper at a rate of approximately seven lines per second. Graphic logos can be printed out as well, helping to further promote your business. Plus, the drop-in paper loading mechanism lets you change paper rolls quickly and easily.

Bright LED Operator Display

Bright and easy-to-read, the LED operator display on the machine

Electronic Journal

The XE-A137 feature and electronic journal function that can electronically store up to 3000 lines of transaction data, helping to converse paper and reduce costs.

Fast and Accurate Price Entry

Equipped with 200 PLUs (price look-ups), the cash register make entering pricing information easy. Simply entering codes for the items being purchased lets you total up sales with accuracy and speed. Eight pre-programmed departments are also available for easy tracking and analysing of transactions by product type.

Other Key Features

- Secure 5-position key switch
- Automatic tax (VAT) calculation (4 VAT rates)
- Help key for fast printing of set-up and operating instructions.
